Select the class time that is convenient for you because most classes include students with different levels of experience. You can begin or build your skills with clay by learning techniques to transform raw mud into fun and functional vessels.

We provide state of the art pottery wheels, slab roller, extruder, plaster molds, texture tools and electric kilns. Wheel instruction is provided by David Johnson or Margaret Rost and handbuilding by Susana Jones.

Draw inspiration from our library of reference books and videos in an atmosphere of support and creativity.

Class size is limited to 8 students per session. Classes fill quickly, so timely payment is recommended to ensure your space.
